

We are extremely happy with Indiana's No-Call list. We were receiving from 8 to 12 calls every day from telemarketers. My husband works nights and sleeps days, so this was quite annoying. We bought a new phone and subscribed to caller I.D., but those pests don't identify themselves. We have a son in Ireland and a daughter in Brooklyn, and when they call, it also says "Out of Area" on the caller I.D., just as it does for telemarketers. Please do NOT do anything to weaken our wonderful No-Call list that has restored peace to our lives. Thank you. Telemarketers should HAVE to identify themselves on caller I.D.
